

🎓 WHAT DID YOU LEARN? 🎓

By playing, you learned about:

- ❖ Simple rules → complex behavior
- ⌚ Why persistence is rare
- 🎯 Why starting conditions matter
- 🤖 How Artificial Life works

This game is about:

- 💡 Curiosity
- 🌐 Exploration
- 🎮 Learning by playing

🎲 WHY ARE VEGGIES PLACED RANDOMLY? 🎲

You might ask:

"Why can't I choose where veggies go?"

Because the game uses guided randomness

That means:

The game helps choose

You still influence it by collecting veggies

Discover ways to cook a persistent dishes!

🌱 WELCOME TO BALD B'S VEGGIE ADVENTURE! 🌱

Bald B is hungry!

But before cooking dinner, he needs to collect vegetables from the yard!

What you do in the fields will decide what happens later in the kitchen

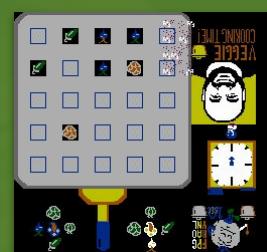

This game is:

- An adventure
- A challenge
- And a little experiment

Let's play and discover what happens! ↗

Patterns appear!

You learn

- 3 Veggies follow Game of Life rules
- 2 The oil cursor moves
- 1 The oil cursor moves

You learn

- Your veggies are placed on a 5x5 frying pan grid
- Time to cook!

PHASE 2: VEGGIE COOKING TIME!

There is no "wrong" result, only different outcomes!

New discoveries

New patterns

New placement

Get to know each time of:

Restart the game, move from yard to yardstage anytime!

TRY AGAIN AND DISCOVER MORE!

The Game of Life is a special game made with rules instead of players. It uses a grid like this:

Each square (called a cell) can be:

- Empty
- Alive

The cells change by themselves.

Game of Life rules!

The vegetables follow the Game of Life rules!

WELCOME TO BALD B'S VEGGIE ADVENTURE!

WHAT IS THE GAME OF LIFE?

HOW DOES IT WORK? (SIMPLE RULES)

IMPORTANT IDEAS (BIG DISCOVERIES!)

PHASE 1: COLLECTING VEGGIES

WHAT DID YOU LEARN?

CONTENTS

BALD B IN WHERE ARE MY VEGGIES?

INFO BOXES: LEARN WHILE PLAYING

Look for boxes with an "i"

They explain:

-  Why cells live
-  Why they disappear
-  What happens in the kitchen

 You don't have to read them

But they help you understand the game!

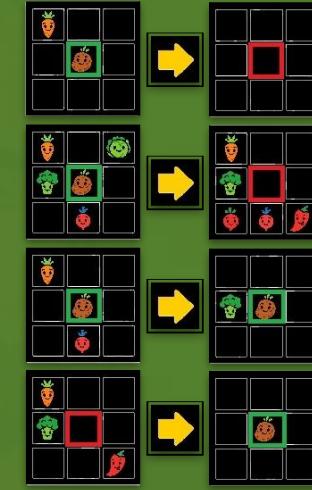

7

HOW DOES IT WORK? (SIMPLE RULES)

Each cell looks at its neighbors

Simple rules:

-  Lonely → disappears
-  Too crowded → disappears
-  Just right → stays alive
-  Empty + friends → becomes alive

 Simple rules can create surprising patterns! 

PHASE 1: COLLECTING VEGGIES

Run through the yard and collect veggies!

But watch out →

- Enemies can steal your harvest
- Touching them removes your harvest

Controls:

- Move Bald B
- Ask for info at "i" boxes
- Go to next screen
- Select - Pause
- Start - Restart

More veggies = more fun later, perhaps?

Information: Stage Start Player Pickups Life Counter (3) Level Editor (3) Pick Up Counter (for goal) Fee

IMPORTANT IDEAS

PERSISTENCE

Small rules → big surprises!

Some patterns last a long, others disappear quickly

EMERGENCE

Can't always know a result Behaving like a living system

UNPREDICTABILITY

Big surprises → small rules

ARTIFICIAL LIFE

Behaving like a living system
